## **DETAILED ACTION**

### ***Response to Amendment***

Examiner acknowledges response by applicant's representative received 1/5/08.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1 & 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alam (602) in view of Mankoff et al. (651).

Alam discloses Vocabulary Building Game Cards.

#### **Regarding claims 1 & 3**

Alam teaches a vocabulary building exercise using words (see abstract and claim 1), identifying a first expression (before) obscuring it (card face down) and presenting a lesser-known word to form a second expression (pre) and a means for scoring in the form of a scoring system (col. 4, lines 63 - 67). Alam fails to explicitly teach providing one or more definitions of the lesser known word(s). Mankoff discloses Vocabulary Playing Cards. Mankoff teaches vocabulary building cards with words and definitions,

which are used to decipher the vocabulary word (see abstract, claim 1 and col. 2, lines 29-68). It would have been obvious to modify Alam in view of Mankoff to provide multiple choices for the players.

### ***Response to Arguments***

Applicant's arguments filed 1/5/08 have been fully considered but they are not persuasive.

In response to applicant's argument that "the elements in the combination do not **merely** perform the function that each element performs separately ".

Applicant's invention is rejected under 103 U.S.C. 103(a). The examiner maintains the rejection since obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, where Alam fails, Mankoff teaches his short fall. Mankoff teaches vocabulary building cards with words and definitions, which are used to decipher the vocabulary word (see abstract, claim 1 and col. 2, lines 29-68). A modification of Alam in view of Mankoff would provide multiple choices for the players.

This action is made final.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
